

VIRTUAL PHONE BOOTH

What is a Virtual Phone Booth?

The Virtual Phone Booth Calling Card allows subscribers to place calls to various destinations by logging into their voice mailbox. Calls are billed to your account. Calls are logged and can be viewed from the web.

How does it Work?

After logging into your voice mailbox to check messages, you can select the Virtual Phone Booth option and enter any US domestic telephone number to dial. You are connected to the number when it is answered. The calls are billed at the same rate as your regular 800 voicemail service.

Caller ID Override

When placing Outbound calls with Virtual Phone Booth, you can enter a specific telephone number to display on the telephone of the person you are calling. This allows you to call from anywhere and specify a different number, such your office phone, as the Caller ID number.

Auto Login will recognize your telephone number and automatically log you into VPB. This streamlines your dialing process to a single speed-dial button from your home or cell phone.

Call Recording

You can also have the option to record your calls.

With this feature enabled, each time you place a call, the conversation is automatically recorded and saved as an audio file in your voice mailbox. It can be forwarded to your email as a WAV or WMA file, played over the phone like any other voice mail message, or retrieved from the Web.

Pricing

<i>Svc Level</i>	<i>Setup</i>	<i>Monthly</i>	<i>Per Minute</i>
Virtual Phone Booth	\$25	\$6.95	9.9 cents minute

Credit Card Authorization

Please complete all the following information. Your account cannot be processed if incomplete.

I did not appear in person at DIAMOND VOICE Messaging to present my credit card and do authorize by my signature any and all valid charges made on my credit card by DIAMOND VOICE Messaging. I understand my credit card will be billed monthly in advance for services rendered and so authorize said billing as well as additional usage charges as they occur. I understand that charges declined by the credit card issuer will constitute grounds for cancellation of service and that all monthly charges and usage charges incurred will be subject to collection procedures. This authorization will continue until revoked in writing.
